

## *Rocker Pad (Single, Double)*

### **Self-powered wireless controls are simple to install.**

Verve® Single and Double Rocker Pads use radio frequency technology to communicate wirelessly with other Verve devices and provide convenient control of lighting, temperature and miscellaneous electric loads. The rocker pads are self-powered and never require batteries because the simple act of pressing the rocker generates enough energy to send a signal to other Verve devices. Use them in conjunction with Verve sensors and controls to maximize efficiency and provide a level of comfort and convenience you cannot achieve with traditional switches. Verve products feature clean contemporary styling, making them an attractive addition that's sure to compliment any décor.

### **Features & Benefits**

- Communicates wirelessly with other Verve devices using EnOcean radio frequency technology.
- Wireless - no additional wire to run so installation is fast and easy. Install them where you want them and then move them anytime.
- Self-powered - no batteries to replace and no on-going maintenance.
- Decorator style rocker pads capable of performing switching and dimming functions.

# Rocker Pad (Single, Double)

## Specifications

Power Supply	Electrodynamic harvesting
Inputs/Outputs	<ul style="list-style-type: none"><li>• 1 or 2 button rocker switch options</li><li>• Radio Frequency (RF) transmitter</li></ul>
Communications	315MHz EnOcean RF transmitter
Transmission Range	80ft. (25m)
RF Transmission	On press and release of rocker button
Dimensions	<b>Single:</b> 4.95" H x 3.22" W x .75" D (126mm x 82mm x 19mm) <b>Double:</b> 4.95" H x 4.4" W x .71" D (126mm x 112mm x 18mm)
Weight	<b>Single:</b> 3.98oz. (112g) <b>Double:</b> 5.3oz. (150g)
Mounting	Surface mounted on wall ( <i>using included mounting screws</i> ) Can also be flush mounted by optional use of electrical wall box or low-voltage ring
Environment	<ul style="list-style-type: none"><li>• Indoor use only</li><li>• 32° to 131° F (0° to 55° C)</li><li>• 5% to 95% relative humidity (<i>non-condensing</i>)</li></ul>
Agency Listing	FCC, I.C.
Warranty	5 years

## Ordering information

Item Number	Item Description	Color
VRP-W	Rocker Pad	White
VDRP-W	Double Rocker Pad	White

## Typical Applications

Verve® Rocker Pads are perfectly suited for use in new construction projects or when updating an existing space. Combine them with other Verve products for efficient and convenient control of lighting, temperature setbacks and miscellaneous electric loads.
